A depiction of an artist's study, reflecting a sophisticated and understated montage of textures, colors, and mediums. Painted floors evoke a French farmhouse feel, while walls in cool neutral allow the palette of the featured paintings to take center stage. Textural notes continue with a Lucite desk and velvet chair. Woven and light window treatments complete the space. The room exudes a sense of calm and comfort offering the perfect environment in which to relax, think, and, most importantly, create.
